Hi Alexa,

Attached are two email messages between me and Rob Habel of DOGGR regarding the well brought to our attention by CBD in San Benito Co. Rob's email of Nov. 4th to me was prompted by a conversation we had the day before when I asked him if he had seen the CBD inquiry (sent to Steve Bohlen and others) about a production well in San Benito Co. You asked if we are waiting for the memo DOGGR sent to CBD. I'm attaching the original memo (mid-Sept from Boardman), but if you mean a response to the last CBD letter (the one dated September 29, 2014), I've not seen anything from DOGGR.

Please feel free to call if you have other questions or need additional information.

Thanks,

David
